

MA/MSc International Political Economy

(One Year Full Time or Two Years Part Time)

Introduction

The MA/MSc International Political Economy (IPE) is designed to provide an in-depth understanding of the institutions, actors, events, and politics of the global economy. Basing itself in international relations theory and method, the course explores the international trade, monetary and finance systems, the processes of globalisation, the impact of emerging economies and the causes and consequences of economic underdevelopment. You will probe the linkages of the global economy with international

environmental, human rights, gender and migration issues. You will study both the 'British' and 'American' schools of IPE.

In UCD, you may choose to study for an MA or MSc qualification in International Political Economy. The MSc track includes additional research components and is particularly suitable if you want a career in research or academia. The MA track is broader and allows you to choose to complete a dissertation or apply for an internship.

Programme Highlight

UCD School of Politics & International Relations is the oldest and largest school of its kind in Ireland with over 150 years of experience in political studies and a world-renowned staff drawn from many countries. This programme aims to transform students into specialists in International Political Economy with the capacity to critically appraise cutting edge debates at both national and international level and to be capable of carrying out policy-relevant research therein.'
