

Title:	Veterinary Research Summer Vacation Training Scholarships
Award Type:	Scholarship
Programme Description:	
Long Description:	These scholarships which amount up to EUR2,500 each and cover travel and subsistence expenses are awarded annually to veterinary students from any stage, on the recommendation of an Assessment Committee based on an interview and the candidates' performance in their courses. The scholarships are designed to allow the successful students to work in renowned research laboratories where they can actively engage in some innovative investigation of interest to the livestock and other related industries. They are normally awarded to cover work done during the Summer vacation.
